Reliability is our strength.
FUCHS AGRIFARM lubricants are
the result of decades of experience.

Fuchs has been active in the agricultural lubricants market for more than 50 years, both as an OEM supplier to machinery manufacturers and in the workshop sector. Advanced and innovative AGRIFARM brand lubricants ensure the best possible reliability for all equipment, from engines and gearboxes to hydraulic systems in machinery and vehicles.

Total reliability:

AGRIFARM lubricants undergo the severest practical trials and tests during development. This ensures that your valuable machinery and vehicle fleets enjoy the best possible protection.

AGRIFARM makes the difference:

AGRIFARM products are high-end lubricants of the highest quality made by FUCHS which fulfil all the current standards set by leading manufacturers. FUCHS only uses carefully selected and specially developed raw materials for AGRIFARM lubricants. From the base oil through to the additives.

This flyer contains an overview of AGRIFARM lubricants. Just contact us – we have the perfect fluid for your machinery.

The information contained in this product information is based on the experience and know-how of FUCHS EUROPE SCHMIERSTOFFE GMBH in the development and manufacturing of lubricants and represents the current state-of-the-art. The performance of our products can be influenced by a series of factors, especially the specific use, the method of application, the operational environment, component pre-treatment, possible external contamination, etc. For this reason, universally-valid statements about the function of our products are not possible. The information given in this product information represents general, non-binding guidelines. No warranty expressed or implied is given concerning the properties of the product or its suitability for any given application.

We therefore recommend that you consult a FUCHS EUROPE SCHMIERSTOFFE GMBH application engineer to discuss application conditions and the performance criteria of the products before the product is used. It is the responsibility of the user to test the functional suitability of the product and to use it with the corresponding care.

Our products undergo continuous improvement. We therefore retain the right to change our product program, the products, and their manufacturing processes as well as all details of our product information sheets at any time and without warning, unless otherwise provided in customer-specific agreements. With the publication of this product information, all previous editions cease to be valid.

Any form of reproduction requires express prior written permission from FUCHS EUROPE SCHMIERSTOFFE GMBH.

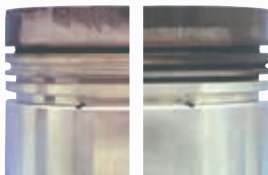

Our know-how guarantees the best possible reliability.

FUCHS AGRIFARM is the worldwide specialist for high-end lubricants.

Agricultural machines have to prove their value in day-to-day practical use. As a professional, you know how vital the right oil is to the performance and life of machinery. Reason enough to trust FUCHS AGRIFARM high-tech lubricants.

Tangible results of this technology are, for example, noticeably longer oil change intervals in engines and significantly fewer signs of wear.

Significantly less wear = greater reliability and lower costs
