CARE

esens[®] is the chemical product brand developed by ISTOBAL. As carwash experts for more than 60 years, we know that an effective chemical is essential to obtain an impeccable finish. With **esens**[®], our chemical solutions fulfil our customers' expectations and ensure the profitability of carwash equipment.

esens[®] includes two chemical families:

Originals

Products in differently-sized containers and barrels to meet specific needs.

Xtract

Super-concentrated products in revolutionary packs with great logistic and environmental advantages.

ISTOBAL and its **esens**[®] **chemicals** guarantee the cleaning results expected by the most demanding clients. The latest technology and the most innovative solutions to facilitate the cleaning of all vehicle types.

esens[®] ORIGINALS

Our chemicals are available in containers with different sizes (from 5L to 25L), 1L and 2L bottles, 200L barrels and 1000L tanks. A large variety of traditional formats for each individual need.

esens[®] Originals covers all carwash areas:

- Rollovers and tunnels
- Self-service wash bays
- Commercial vehicles
- Manual professional cleaning (interior and exterior)
- Water treatment
- Facility maintenance

With **esens[®]**, we are aware that each facility and each customer have specific needs. That is why all formulations are customised into a number of categories (Basic, Medium, and Select).

Additionally, the Premium category offers the most innovative chemicals, adding value to the carwash process.

BASIC

MEDIUM

SELECT

PREMIUM

xtract

Xtract super-concentrated chemicals have a 90% smaller volume than traditional chemicals, which makes **shipping** more economical **and reduces** storage needs. Waste is also reduced by 90% versus standard containers.

BIO CAP

Water-soluble biofilm bags

Bio Cap is the product range with more advantages, as the film encapsulating the liquid dissolves and disappears in contact with water. An innovative, easy-to-use product. A carwash revolution.

Use: All

Environmental advantages: ****

Storage advantages: ****

Preparation: Previous dilution in water.

DOY PACK

Doy Pack plastic bags

Doy Pack offers concentrates in a convenient and small plastic package that preserves the functionality typical of Xtract products.

Use: All

Environmental advantages: ***

Storage advantages: ****

Preparation: Previous dilution in water.

FLASK

Thermo-sealed bottles

Flask allows machines with an Xtract dosing system to be supplied with super-concentrated products, a development by ISTOBAL that simplifies the handling of chemical consumables.

Use: M'NEX 32 rolover by ISTOBAL

Environmental advantages: ***

Storage advantages: ****

Preparation: Ready-to-use product.

Xtract dosing system

ISTOBAL presents a new device for hyper-concentrated products using the Xtract Flask format to be directly dosed into carwash machines. A quick, clean and easy way to supply chemicals and ensure profitability at your carwash centre.

Xtract mixing system

Xtract super-concentrates in Bio Cap and Doy Pack formats can be automatically diluted with a new mixer, available with differently sized tanks: 15L (for rollover columns) and 80L and 150L (for plant rooms). A convenient device that simplifies the handling of chemicals.

ROLLOVERS AND TUNNELS

A quality chemical is an adequate way of making the most of a rollover or a carwash tunnel, profitability-wise. ISTOBAL knows the specific needs of these two technologies perfectly.

Rims prewash - Concentrated rim spray shampoo

Superconcentrated alkaline cleaner to easily remove dirt from rims and make them shine. Removes the black dust generated by brakes, oils, tar and other dirt types that reduce rim shine over time. Contains corrosion inhibitors to extend service life. To be applied over rims in 20% dilution maximum.

Some carwash tips, the prewash

1

What is a 'traffic-film'?

It is the greasy film that sets over the surface of all vehicles just by driving in the city or elsewhere. It is made up of pollutants coming from exhaust pipes and tarmac particles.

2

Why is it important to clean the rims?

The dirt that builds up on rims comes from the black dust generated by brakes, oils and road tar. The surface shine fades away if rims are not properly cleaned, and rust may irreversibly damage them.

3

Why is it so hard to remove insects?

All drivers know how dirty the car front can get during the hottest months. Insects and bird droppings are organic matter that dries very quickly and gets embedded into the bodywork and the windows.

4

How does a good prewash work?

Prewash products are specifically designed to remove the traffic film, rim dirt, insect remains and bird droppings. Their high degreasing power softens up organic materials. They are applied in a first phase and work very quickly on any stubborn dirt, improving and boosting the cleaning effect of the mechanical action of the next wash step (either with brushes or with high-pressure water).

Active mousse - Active foam

Concentrated shampoo with a high-density foam which dissolves and eliminates all kinds of grease and dirt on vehicles. Available with different scents and bright colours to create a positive carwash experience.

Pro dashboard matt 5L	5291005	Interior	Dashboard silicone-free cleaner and polish for a matt finish, with anti-static properties that prevent dust from sticking to surfaces, keeping them clean.	
Pro dashboard matt 10L	5291010			
Pro dashboard matt 25L	5291020			
Pro leather 1L	5293901			
Pro leather 5L	5293905	Interior	Leather and artificial leather cleaner and polish for vehicle interiors. Regular use provides a shine-enhancing effect.	
Pro leather 10L	5293910			
Pro mats 5L	5239100	Interior	Powerful mat cleaner shampoo that favours the elimination of stubborn dirt.	
Pro mats deodor 1L	5297701	Interior	Hygienising product intended to eliminate odours from mats and create a fresh atmosphere inside your car.	
Pro mats deodor 5L	5297705			

Fragrances, interior

Fresh - Fragrances

Fragrance sprays for vehicle interiors, with a nice and lasting smell.

WATER TREATMENT

ISTOBAL has been working with water for the past 60 years, which explains why **esens**[®] is a trustworthy, solid proposal for chemical products and consumables for water treatment equipment.

Hydro

The water we supply our carwash machines with varies to a great extent. Each water type requires different chemicals. That is why **esens®** has developed a dedicated line, Hydro, intended to obtain a quality and environmentally friendly car wash.

Originals			
Name	Reference	Description	
Hydro salt 5kg	2052700	Specific salt for usage in water softeners. Its extreme purity regenerates resins and brings back the softening power of water. esens salt contributes to maintaining the capacity of the water softener to eliminate carbonates naturally present in water which are very damaging due to their ability to build up.	
Hydro salt 10kg	2052710		
Hydro foam remover 25L	5W001300	Water-based anti-foaming agent and defoamer, silicone and mineral oil-free. Formulated for a wide temperature and pH range.	
Hydro balance pH protect 25L	5243200	Acidic pH liquid product especially intended for reducing the pH of waters when values are too high, keeping them within an adequate range.	
Hydro balance pH protect 1000L	52432M0	The formulation includes a powerful corrosion inhibitor. Recommended use with model 4DD0100 by ISTOBAL (Disinfectant Dosing Pump).	
Hydro pure 10L	5242210	Chlorine-based hygienising water solution for recycled water and/or feed water in carwash processes. Recommended use with models 4WPC0100 and 4WPC0200 by ISTOBAL (Chlorine Dosing Panel) and model 4DD0100 (Disinfectant Dosing Pump).	
Hydro pure 25L	5242200		
Hydro pure 1000L	52422M0		
Hydro balance HPH 25L	5242100	Product especially developed to increase pH values in dosing systems. Its high quality and high concentration guarantee an excellent performance.	
Hydro balance LPH 25L	5241900	Chemical especially developed to reduce pH values in dosing systems. Its high quality and high concentration guarantee an excellent performance.	
Hydro pure biogul 25L	5301425	Organic peroxide-based hygienising water solution. Intended as a hygienising treatment for recycled and/or feed water in carwash facilities.	
Hydro nutri bio 25kg	5241600	esens nutrients make up for the shortage of nitrogen and phosphorus with regard to the organic matter load to eliminate, facilitating an optimum BOD/COD ratio. They also provide group B vitamins that favour the development of regulating microorganisms. Recommended use with model 4RB0100 by ISTOBAL (Biological Recycler).	
Hydro bio 0,25kg	5241500	Biological booster consisting of (non-pathogenic) bacteria that degrade fatty and organosulphurate compounds without releasing hydrogen sulphide, as well as oils, hydrocarbons, organic acids, etc. Recommended use with model 4RB0100 by ISTOBAL (Biological Recycler).	
Hydro flocculant anion 25L	5243100	Universal organic flocculating agent intended to remove suspended solids. Especially useful in waste water clarification by flotation or decanting.	
Hydro coagulant 25L	5243000	Polyaluminium-chloride based liquid inorganic coagulant suitable for eliminating colloidal matter suspended in water treatment systems. Replaces aluminium sulphate, iron chloride and other inorganic salts.	
Hydro coagulant sulfate aluminium 25L	5301325	Alumina sulphate-based liquid inorganic coagulant effectively used in waste water treatment to eliminate phosphorous.	

Hydro

Originals			
Name	Reference	Description	
Hydro block surfactants 0,9kg	35AB100	Latest-generation surfactant degrader block that works like a biological booster. Consists of non-pathogenic microorganisms, enzymes and nutrients selected for liquefaction and digestion of detergents. Ready to use, does not require dilution or special dosing.	
Hydro block odor 0,9kg	5299020	Latest-generation odour-remover block. Works as a biological booster and consists of non-pathogenic microorganisms, enzymes and nutrients selected for liquefaction and digestion of foul-odour generating agents. Ready to use, does not require dilution or special dosing.	
Hydro block hydrocarbons 0,9kg	5299010	Latest-generation hydrocarbon degrader block that works like a biological booster. Consists of non-pathogenic microorganisms, enzymes and nutrients selected for liquefaction and digestion of hydrocarbons. Ready to use, does not require dilution or special dosing.	
Hydro biocide osmosis 5L	5241800	Water-based non-oxidising biocide used as preventive treatment against microbial growth on membranes in reverse osmosis equipment. Recommended use as pre-treatment in demineralisers treating waters with a microbial content. Must be dosed with specific optional device in models 4DA by ISTOBAL.	
Hydro biocide car wash 25L	5304225	Wide-spectrum water-based non-oxidising biocide. It is highly effective in controlling and preventing Legionella in car wash facilities. Prevents foul odours in recycled water treatment circuits.	
Hydro deodor 25L	2663000	Benzalkonium chloride-based aqueous solution for eliminating bad odours. Product intended for the treatment of recycled water to neutralise possible foul odours.	
Hydro deodor bio 25L	5303525	Innovative biological concentrate. Highly efficient as a degrader of vegetable and animal fats, petrol, diesel, lubricants and solvents that generate foul odours. Natural and environmentally friendly product compatible with wastewater treatment plants. Its handling is innocuous.	

Antiscalant

As an alternative to traditional water softeners, **esens®** has developed descaling chemicals that prevent scale crystals from forming, avoiding damages on osmosis membranes and on the cylinders of hot-water generators.

Originals			
Name	Reference	Description	
Antiscalant osmosis 5L	5240905	Concentrated scale preventer designed to prevent scale crystals from irreversibly damaging the membranes of reverse osmosis demineralisers. Recommended use with ISTOBAL high-flow demineraliser units, models 4DA1000, 4DA2000, 4DA5000 and 4DA6000, equipped with a scale preventer dosing pump.	
Antiscalant osmosis 10L	5240900		
Antiscalant osmosis diluted 5L	5293005	Diluted scale preventer designed to prevent scale crystals from irreversibly damaging the membranes of reverse osmosis demineralisers. Recommended use with ISTOBAL low-flow demineraliser units, models 4DA3000 and 4DA4000, equipped with a scale preventer dosing pump.	
Antiscalant osmosis diluted 25L	5293025		
Antiscalant boiler advanced 5kg	5243400	Latest-generation liquid product especially intended to prevent scale and deposits on boiler surfaces and so avoid heat-transfer losses in hot-water generation systems. The formulation includes a powerful corrosion inhibitor. Recommended application with the optional scale-preventer dosing units for boilers of the n'joywash Jet Wash range by ISTOBAL.	

The logo for ISTOBAL, featuring a stylized red and blue swoosh above the word "ISTOBAL" in red capital letters.

ISTOBAL

FACILITY MAINTENANCE

We all like leaving our vehicle in a clean and tidy place. **esens**[®] offers a complete product catalogue for the cleaning and preservation of your facility and your machines, they way your clients would like it.

Clean

A product range specifically designed for the cleaning of carwash facilities and machinery.

Originals		
Name	Reference	Description
Clean graffiti heavy 1L	5291201	Powerful cleaner to eliminate graffiti and paint from porous surfaces like concrete, blocks, bricks, slate, granite, etc.
Clean graffiti soft 1L	5291101	Powerful cleaner to eliminate graffiti and paint from smooth surfaces like glass, plastic, tiles, etc.
Clean Antical 1L	5287801	
Clean Antical 10L	5287810	Screen cleaner. Removes limescale.
Clean Antical 20L	5287820	
Clean metal alum/inox 1L	5289601	
Clean metal alum/inox 10L	5289610	Formula developed to degrease, polish and give shine to all stainless steel and aluminium surfaces.
Clean metal alum/inox 20L	5289620	
Clean glass 1L	5289501	
Clean glass 10L	5289510	Multi-purpose cleaner to remove dirt from glass, mirrors, windows, tiles or any other type of washable surface.
Clean glass 20L	5289520	
Clean facilities 1L	5291301	
Clean facilities 10L	5291310	Chlorinated cleaning agent for wash bays.
Clean facilities 20L	5291320	
Clean inox 1L	5305101	Protecting effect on stainless steel surfaces.
Clean brush protect 1L	5292901	Concentrated shampoo for the cleaning of both textile and polyurethane foam brushes. It improves their effectiveness and extends their life.
Clean brush protect 10L	5292910	
Clean machinery 1L	5288301	
Clean machinery 10L	5288310	Special product for carwash machine and enclosure cleaning. Removes scale, grease and stubborn dirt easily.
Clean machinery 20L	5288320	
Clean antifrost 1L	5292101	
Clean antifrost 10L	5292110	Intended to eliminate ice and/or frost from the floor of carwash facilities.
Clean Hands paste 5kg	5302605	Ideal paste for hand cleaning in the metal and automation industry. Removes grease and oil quickly.
Clean Hands Dry 5L	5302705	Hand sanitizer for instant hand washing without water.
Clean Hands 5kg	5302805	Dermoprotective hand gel for delicate or sensitive skin.
Clean Mop 5L	5302905	Neutral floor detergent formulated for a powerful cleaning action.
Clean adhesive 1L	5303001	
Clean adhesive 5L	5303005	Adhesive remover designed to remove adhesives and glues in the automotive industry.
Clean surfaces 1L	5303101	
Clean surfaces 20L	5303120	Strong cleaner for high hygiene requirements for floors, tiles and worktops.
Clean cold laundry 20Kg	5303220	Neutral detergent for textiles, maximum fibre care.
Clean dishwasher 12kg	5303325	Liquid detergent for dishwashers.
Clean pipes 5L	5303405	Low-foam scale preventer intended to quickly remove buildups on pipes and sewage systems.
